Issue 1: Nightrive

Our first edition, launching in June 2020 is the 'Nightrive' LP. This spectacular compilation dives into the heart of the seedy underworld of a city at night. The LP features 12 tracks crossing indie and ambient electronica. In this edition you'll receive:

- 1 x Limited edition neon green pressing
- 1 x illustrated 16-page pullout story journal
- 1 x A5 zine with artist info
- 1 x signed postcard
- 1 x Collector bellyband wrap

The Music

We believe that the best way to discover new music is on a format that favours sound quality and art direction. Each month, we curate the best new alternative music around changing themes, like the soundtrack to a movie that was never made. Our first edition heads for the stars in a record themed around the cosmos and 60's science fiction, referencing progressive and synth-driven rock. All of our artists are of course compensated for their work.
